

GROUPWORK MINUTES

Airplane Crashes Data Cleaning Assignment

Date: 17 September 2026

Time: 4:00 PM – 5:00 PM

Duration: 1 hour

Members Present

- 189923 – Emma Ogwayo
- 189592 – Tiffany Maina
- 167925 – Eniola Fabunmi

Agenda

1. Review the assignment questions.
2. Divide the work among members.
3. Complete and check the Colab notebook.
4. Prepare the work for GitHub submission.

Work Done

The group met from 4:00 PM to 5:00 PM and worked on the Airplane Crashes Data Cleaning assignment. The questions were divided among the members:

- Eniola: Questions 1–3
- Tiffany: Questions 4–6
- Emma: Questions 7–10

The members worked on their assigned questions and discussed the answers together. The completed work was combined into one Google Colab notebook and checked to ensure all ten questions were included.

Tiffany compiled the final notebook and uploaded it to the group's original Data-Wrangling GitHub repository. Eniola prepared these minutes as evidence of the groupwork.

Outcome

All ten questions were completed and compiled into one notebook. The completed assignment was uploaded to the group's GitHub repository.

Action Items

- Tiffany: Maintain the final notebook in the GitHub repository.
- Eniola: Submit the groupwork minutes.
- Emma: Confirm that Questions 7–10 are correctly included.
- All members: Review their individual GitHub forks before submission.

Minutes prepared by: Eniola Fabunmi
